

“Your Premier Supplier For Sheet Extrusion”

Tired of your outdoor signs blistering and cracking from the harsh environment? Do you wish you didn't have to replace those low-quality signs from splintering and bowing? Are you looking for a durable, cost-effective & long term solution to this problem? If so, then look no further...

GEM Plastics is proud to introduce **GEM Board™** for signage applications. Our high-grade HDPE sheet ranging from .200" to 1.5" thick is a durable, consistent sheet which shows an unbelievable resistance to UV and harsh weather conditions. It's great for applications where weathering and moisture are factors. **GEM Board™** for signs is also available in a lightweight sheet where weight concerns are an issue.

Why keep replacing your old, weathered materials year after year?

Make it a “One Time” job with **GEM Board™** for signs.
